

# HEAVY DUTY WORK BENCH

Tools required: Rubber mallet

We advise the use of protective gloves and goggles, or eyeglasses when assembling this product.

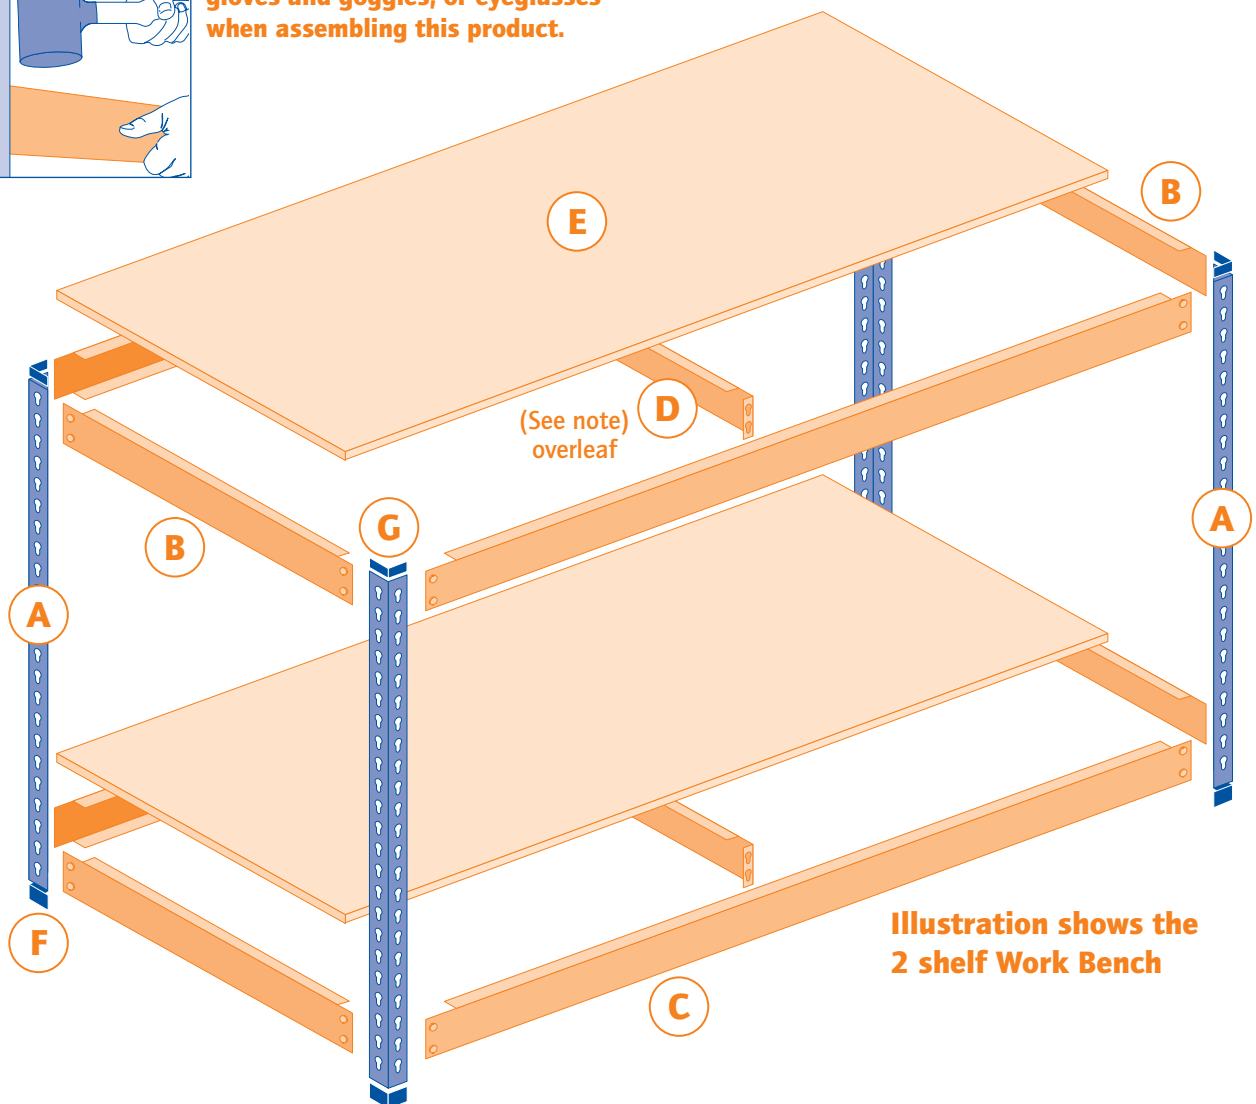

Illustration shows the 2 shelf Work Bench

## ASSEMBLY

- 1 Fit plastic feet, **F**, to the bottom of uprights **A**.
- 2 For 2 shelf unit, fit side beams **B** to uprights **A** as illustrated, the lower beams **B**, may be fitted at the shelf height of your choice up to 300 mm from the floor.
- 3 For T-Bar and  $1\frac{1}{2}$  shelf unit substitute the lower side beams **B**, for T-Bar side beams **I**.
- 4 Fit front and rear beams **C**. Four of for the 2 shelf unit, three of for the  $1\frac{1}{2}$  shelf unit and two off for the T-Bar unit. For the  $1\frac{1}{2}$  shelf and T-bar fit the T-bar beam **H**.
- 5 Fit the shelf supports **D**, and place the work surfaces, **E** and **J**, in place. Fit the bottom shelf **J** locating with retainers **K**.
- 6 Fit 4 plastic caps **G**, on top of uprights **A**.

Illustration shows the T-Bar  $1\frac{1}{2}$  shelf Work Bench. For 2 half shelf bench repeat components H, I, J and K.
